SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0199, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

B. Needs and Uses

DoD, GSA, and NASA are combining OMB Control Nos. for the Federal Acquisition Regulation (FAR) by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the revision of OMB Control No. 9000–0199 and combines it with the previously approved information collections under OMB Control Nos. 9000–0201, with the title "Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment". Upon approval of this consolidated information collection, OMB Control Nos. 9000–0201 will be discontinued. The burden requirements previously approved under the discontinued numbers will be covered under OMB Control No. 9000–0199.
